## Eco-Range rigid lens endoscopes

A range of small diameter rigid lens endoscopes with various fixed viewing directions.

Ideal for small bore and lock inspection.

A range of more affordable rigid lens endoscopes. Made with German lenses and fibres, our new Eco range offers great value for money. All sizes have an industry standard 31.75mm eyepiece, adaptable to our cameras, 'smart-clamp' endoscope – smart-phone adaptor and universal light input connectors for use with any of our light sources. The range is available in diameters of 2.7mm and 4mm, with lengths from 55mm – 302mm. Available directions of view are 0°, 30°, 45° and 70°
